

WELCOME TO ICANDO SYSTEM

About the Project

ICANDO SYSTEM OF ACTIVATION is a unique system of activation of your brain increasing its abilities without use of doping. The correct usage of the system guarantees a considerable increase of your brain abilities as well as the general improvement of your physical and emotional state, the harmonization of external and inner processes.

To give a brief summary of the project we have to return 12 years back to the time when the possibility and the necessity of increase of human brain abilities was scientifically proved and became obvious to a number of progressminded people and in particular to a group of specialists joint by the idea of realization of the ICANDO SYSTEM OF ACTIVATION project.

Why?

Because the time of ICANDO has come!

Because in the contemporary world the scientific and technical progress is speeding up and you acknowledge it when when information becomes old in several minutes
when the rate of enegy processes is almost physically tangible
when the main condition of moving forward and your competitiveness becomes your capacity to have enough time for ev-
erything...You often feel tired and exhausted. You fail to analyse all necessary information in time! And the international word
"stress" is clear to everyone in any language, but the worst thing is it's natural and familiar to you!

More than once the thought that there must be a way out of the situation came to your mind. You have certainly used a
couple of opportunities. You are sure to know the techniques of stress relief and methods helping gain peace of mind. It's
very important and necessary.

Methods of relaxation help you relax after stress, but they don't solve the main problem: How to manage everything avoiding
stresses?

ICANDO SYSTEM OF ACTIVATION solves exactly this problem!

The notion of brain Activation comprises seven basic parameters of brain activity during processing and adoption
of information:

VOLUME

- Increase of volume of the active part of the brain and activation of the right cerebral hemisphere

SPEED

- Speeding up of apprehension of the information flow

POWER OF FLOW

- Extension of the information adaptive capacities of brain.

COMPLEXITY

- Activation of the brain capability to analyse the flow of complicated information.

ANALYSIS

- Improvement of analytical abilities of brain.

ADSORPTION

- Speeding up of the process of classification of the incoming information flow.

ARCHIVATION

- Activation of the brain ability to concentrate and keep information in a condensed form with its further instant
extraction if necessary.

Do you wish to get further detailed information from the scientific point of view?

See section "Science about ICANDO".

Activation of brain with the help of an ICANDOModule is a key element of a global system of knowledge and an opportunity of activation of energy resources of a human organism as a whole. Today this knowledge is open to all mankind and is available in a wide range of forms. ICANDO SYSTEM OF ACTIVATION is one of them. The originality and uniqueness of the System is in its KNOW HOW:

- instant brain activation (your brain get activated at exactly specified time)
- brain activation through the Internet (you'll need no additional means, equipment or literature)
- brain activation without any special training or limits of use (the method activates centers of self-regulation of your organism)

An activation ICANDOModule consists of several sections:

- STARTWORD
- WORDTIME
- TRINIX
- FINISHWORDTIME
- TOP

These mediators of activation comprise images and sounds convenient for your perception. During activation they work with you inside the ICANDOModule.

Consult the ICANDO vocabulary! The above definitions as well as many others, familiar to ICANDOUUsers will also become handy and convenient to you! It isn't an easy task to understand the Pythagorean Theorem for a person who doesn't know what a hypotenuse means. While every pupil is able to prove the Pythagorean Theorem! Consult the ICANDO vocabulary!

The application and the successful usage of ICANDO SYSTEM OF ACTIVATION do not require a detailed understanding of the Moment of Activation itself. The system is a unique know-how. It is just as it was defined by Tomas Edison – a genius in the field of electricity. Answering the question "What is electricity?" he simply said: "Electricity exists, use it".

Scientists proved that the active part of brain equals only 3-5% of its volume. The ICANDO SYSTEM OF ACTIVATION does not only increases the volume of the active part of brain in the period of activation it also improves its abilities. As a result you are able to apprehend and analyse information more effectively and more qualitative. You'll cope with it easily and will keep fresh at that!

Your own additional resources will be activated!

Moreover, ICANDO SYSTEM OF ACTIVATION is an original trainer for your brain: recurring activated state helps your brain adapt to it and its abilities usual to the "normal state" gradually improve.

The aims and type of Activation are defined by an ICANDO user himself. The complete list of available ways of the Activated brain usage can be found in the TEST. You should pass the test in order to explain the System which type of an ICANDOModule you require right now. It is enough to choose two main parameters:

- Sector of Activated brain realization
- Type of Activation

ICANDO is easy!

You can have your brain working with set intensity and quality at a required moment! You can increase the productivity of your brain! Speed-up your thinking!

- *Do you wish to easily carry out negotiations after a sleepless night or a long flight?*
- *Is your business connected with a stock exchange?*
- *Are you fond of golf?*
- *Are you a student?*
- *Are you going to take exams?*
- **Activate your brain with the help of an ICANDOModule!**
- *Do you want to master a new technology within a short period of time?*
- *To pass effectively qualification courses?*

- To participate in "a brain storm"?
- **Activate your brain with the help of an ICANDOModule!**
- To learn a foreign language?
- To become more concentrated and productive at your job?
- Or you simply wish to dance and have fun tirelessly, without doping for long hours?
- Maybe harmony and peace in your family or team creative work are very important for you just now?
- **Activate your brain with the help of an ICANDOModule!**
- **You can do it!**
- ICANDOSYSTEM OF ACTIVATION will activate your BRAIN! Brain is the center controlling all the processes in the human organism.
- **And you know it!**

Are you rich and successful?

Be even more SUCCESSFUL and RICHER with ICANDO!

Just activate your brain with the help of an ICANDOModule. Do the test and an appropriate method of activation will be chosen specially for you in accordance with your requirements. The scheme given below, vividly shows the level of brain activity during the period of activation in different types of activation.

There are three types of Activation:

- instant activation
- activation with a timer
- activation with interrupted activity

Diagram No.1 shows the percentage-time relation of the changes in brain activity during the Instant Activation

Diagram 1

Diagram 1

The segment of time ICANDO marked as the moment of activation corresponds to the time of the ICANDO module passage.

Diagram No.2 shows the percentage-time relation of the changes in brain activity during the Activation with a timer

Diagram 2

Diagram 2

The segment of time IC, marked as the Moment of Activation, corresponds to the time of the ICANDO module passage.

Diagram no. 3 shows the percentage-time relation of the changes in brain activity during the activation with interrupted activity for X days.

Diagram 3

Diagram 3

The segment of time IC marked as the Moment of Activation corresponds to the time of the ICANDO module passage. It is seen that the brain activity remains unchanged, not only at the moment of duration but during the whole period of time until it reaches the point D (today, at the set time) which has been marked in the testing process.

Certain modular lines correspond to each type of activation and include:

- ICANDOmdules of instant activation
- ICANDOmdules of activation with a timer
- ICANDOmdules of interrupted activity

Techniques, used by the ICANDO SYSTEM OF ACTIVATION are unique and have been tested more than once and undergone analytical researches. All the results the tests confirmed the high level of the System effectiveness and high brain productivity during the period of activation.

References and responses to the effect of the ICANDO SYSTEM OF ACTIVATION can be found in the ICANDOlife section.

Just having passed the Moment of Activation for the first time you'll stop looking for pros and cons. Having experienced the state of activated brain, you'll discover a new mode of life with ICANDO SYSTEM OF ACTIVATION.

The entrance to the DEMOversion of the activation ICANDOModule, which will activate your brain for 30 minutes with instant increase of its abilities, is on the main page. Every journey begins with the first step – try our DEMOversion!

Before passing an ICANDOModule get acquainted with the Rules of Activation. Non-observance of the Rules reduces the effect of Activation.

Do you want to ask a question or advice? Contact the System (section "Infor and Contacts") or an ICANDOconsultant. The name of the consultant and the e-mail address can be found in the section "Consultants". All your consultants are specialists in the sphere of activation of human organism resources. Every consultant will be glad to answer your questions! Write to the ICANDOconsultants!

In the main menu you can find the schemes of Activation. They are your assistants, which will help you understand what happens inside the System of Activation and how an ICANDOModule works, will guide you about the site.

We try to make easier the process of understanding, because the alleviation of the life around us is the chief goal of the ICANDO SYSTEM OF ACTIVATION!

Look through the schemes and let the distance between your first visit of the site and the Moment of Activation be as short as possible! We are easy for those who are ready to understand!
ICANDO is for those who can understand!
