

WELCOME TO THE SYSTEM

THE RULES OF PASSING OF ACTIVATION ICANDO MODULE

(The moment of Activation)

- To pass the moment of Activation successfully you need to be quiet, relaxed and concentrating on the screen.
- Your body must be absolutely relaxed, the screen is against your chest.
- The distance between the monitor and the ICANDO user is regulated by ICANDO users themselves, depending on how they feel, but not less than 70 cm.
- Somebody else's presence lowers the result of Activation.
- The distance between you and somebody else (if you cannot avoid their presence) must be not less than 3 m.
- We recommend that you have your computer in a separate room.
- A passage of the ICANDO module must not be interrupted. Switch off your mobile telephone, radio or TV. Exclude all possible hindrances.
- The ICANDO code gives you the right to enter the ICANDO module once. Interrupted entrance is considered completed, and the moment of Activation is also considered to be passed. Repetition or generation of the ICANDO code is not possible.
- A moment of Activation interrupted due to the ICANDO SYSTEM OF ACTIVATION is considered not completed. To pass it once again you are given a new ICANDO code. In case of non-passing we recommend you inform the system by e-mail immediately, notifying your ICANDO name and the ICANDO payment number of unpassed ICANDO module, the date, the time and the place you are at the moment of Activation.
